PROFILE

Experienced Front-end Developer with 3 years of hands-on expertise in React, Next.js. Specializing in crafting responsive, high-performance web applications, I excel in creating scalable user interfaces using modern CSS frameworks such as Tailwind CSS. I have a proven track record of developing interactive web applications with intuitive user interfaces. I am dedicated to writing efficient, maintainable code and staying updated with the latest front-end technologies and best practices. My commitment to continuous improvement makes me a valuable asset in delivering exceptional user experiences.

EMPLOYMENT HISTORY

Jul 2022 — 2024

Junior Front-End Developer, Tranarc Solutions

- Developed a secure, interactive web application with a modern front-end framework and an intuitive user interface.
- Collaborated closely with senior developers and cross-functional teams to implement new features, bug fixes, and UI/UX enhancements in an agile development environment and daily standups.
- Optimized web pages for maximum speed, scalability, and SEO, using techniques such as lazy loading, code-splitting, and image optimization, improving load times by [specific percentage] and increasing overall application performance.
- Integrated APIs and services into front-end components, ensuring seamless communication between the front end and backend systems (RESTful APIs), enabling real-time data display and interaction.
- Leveraged version control tools (Git) for code management, ensuring smooth code integration and collaboration.

2021 — 2022

Front-End Developer Intern, Tranarc Solutions

- Adapted to rapid changes in project requirements, demonstrating flexibility and a willingness to learn new technologies and approaches.
- Implemented design mockups and wireframes provided by the UI/UX team using HTML5, CSS3, SCSS, and JavaScript (ES6+), maintaining pixel-perfect design accuracy across different devices and browsers.
- Developed a secure, interactive web application with a modern front-end framework and an intuitive user interface
- Participated in peer code reviews, providing constructive feedback and sharing knowledge on best practices, enhancing the overall quality of the codebase and fostering a collaborative team environment.
- Kept up to date with the latest trends and technologies in frontend development, constantly learning and applying new skills to improve project outcomes and efficiency.

EDUCATION

Meta Front-End Developer Professional Certificate, Meta

Developing Back-End Apps with Node.js and Express, IBM

B.sc (ED) Agricultural Science, University of Uyo

IBM Full Stack Software Developer Professional
Certificate, IBM
